

Say Yes. Save More.

Iron ReHealth is pleased to announce our Prescription Savings Program

This is how the Rx Valet program works:

Rx Valet will identify if any of the chronic medications you routinely purchase are available through any of the Rx Valet Enhanced Savings Programs. If a discount is available, or there is NO COST to you, a specialist will reach out to you and help you get these savings. Rx Valet will handle the prescription transfer and subsequent refills of your medications; we just need your verbal consent. This program is entirely voluntary and can potentially save you a significant amount in co-pays.

Our goal at Iron ReHealth is to give our members the best value, products and services available. By partnering with Rx Valet, we can do just that by increasing prescription savings to our members.

The Prescription Savings Program offers:

- Lower member pricing on prescription medications
- Waived co-pays on eligible medications. Yes, no out of pocket expense for you!
- Various ways to save you money:
 - Enhanced Mail-order Pharmacy program
 - International Prescription Medication Sourcing
 - Coupon Assistance with Co-pays
