Important Questions	Answers	Why This Matters:
<b>What is the overall deductible?</b>	<p>IN NETWORK \$2,600/Individual or \$5,200/Family</p> <p>OUT OF NETWORK \$2,600/Individual or \$5,200/Family</p>	Generally, you must pay all of the costs from providers up to the <b>deductible</b> amount before this <b>plan</b> begins to pay. If you have other family members on the <b>plan</b> , each family member must meet their own individual deductible until the total amount of <b>deductible</b> expenses paid by all family members meets the overall family <b>deductible</b> .
<b>Are there services covered before you meet your deductible?</b>	Yes. <b>Preventive Care</b> and primary care services are covered before you meet your <b>deductible</b> .	This <b>plan</b> covers some items and services even if you haven't met the <b>deductible</b> amount. But a <b>copayment</b> or <b>coinsurance</b> may apply. For example, this plan covers certain <b>preventive services</b> without <b>cost sharing</b> and before you meet your deductible. See a list of covered preventive services at <a href="https://www.healthcare.gov/coverage/preventive-care-benefits">https://www.healthcare.gov/coverage/preventive-care-benefits</a>
<b>Are there services deductibles for specific services?</b>	Yes. <b>\$1,400</b> per admission for out-of-network hospital stay. There are no other specific <b>deductibles</b> .	You must pay all of the costs for these services up to the specific <b>deductible</b> amount before this plan begins to pay for these services.
<b>What is the out-of-pocket limit for this plan?</b>	For <b>network providers</b> \$7,350 individual / \$14,700 family.	The <b>out-of-pocket limit</b> is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own <b>out-of-pocket limits</b> until the overall family <b>out-of-pocket</b> limit has been met. (There are no out of network, out of pocket maximum limits. Once OOP has been met no further benefits will be paid)
<b>What is not included in the out-of-pocket limit?</b>	<b>Copayments</b> for certain services, <b>premiums</b> , <b>balance-billing charges</b> , and health care this <b>plan</b> doesn't cover.	Even though you pay these expenses, they don't count toward the <b>out-of-pocket limit</b> .
<b>Will you pay less if you use a network provider?</b>	Yes. Visit <a href="http://www.carevalet.com">www.carevalet.com</a> or call 1-833-BENEBAAY for a list of <b>network providers</b> .	This <b>plan</b> uses a provider <b>network</b> . You will pay less if you use a <b>provider</b> in the plan's <b>network</b> . You will pay the most if you use an <b>out-of-network provider</b> , and you might receive a bill from a provider for the difference between the provider's charge and what your <b>plan</b> pays ( <b>balance billing</b> ). Be aware, your <b>network provider</b> might use an <b>out-of-network provider</b> for some services (such as lab work). Check with your <b>provider</b> before you get services.
<b>Do you need a referral to see a specialist?</b>	No.	This <b>plan</b> does not require you to seek a referral from your <b>primary care physician</b> prior to seeing a <b>specialist</b> .

All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.
